

Electronic Counter Series

Electronic Counter

KLS11-KQ03H(5+1)

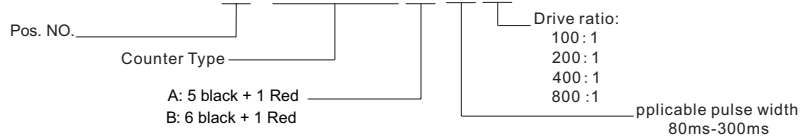

Electrical Specification:

- Work voltage: 3V-6V ;
- DC impedance: 450Ω 5 0Ω at 20°C ;
- Applicable pulse width: 80ms-300ms
- Applicable frequency: ≤4HZ
- Deferent moment: 57μNm/4.5V
- Work temperature: -40°C-+70°C
- Counter range: 0.0 to 99999.9
- Figure color: 5 black+ 1 Red Or 6 black+ 1 Red
- Drive ratio: 100:1/200:1/400:1/800:1
- Use life: pulse exceed a hundred million times (more ten years)
- Antimagnetic capability: Accord GB/T17215 standard request
- Other technical condition: Accord JB5459-91 standard request
- Applicable ammeter constant: 800/1600/3200imp/kwh.
